

The Profiles CheckPoint 360°™ System is a powerful three-part solution for professional development. The first part of Checkpoint is an extensive Checkpoint 360 degree survey to provide managers with multi-rater feedback from those who observe their performance: their bosses, subordinates and peers. This is an important process because increased awareness motivates managers to change the way they do their jobs. The experience of participating in our unique 360 degree feedback system fosters powerful professional development.

The Profiles Checkpoint 360° Competency Feedback System is a multi-rater feedback process that provides managers and leaders with an opportunity to receive an evaluation of their job performance from the people around them – their boss, their peers and the people whose work they supervise. From this feedback, managers can compare the opinions of others with their own perceptions, positively identify their strengths and pinpoint the areas of their job performance that could be improved; their critical development areas.

The Checkpoint 360° Competency Feedback System is an effective managerial development system that pays big dividends in improved performance.

Cost: RRP \$600 includes up to 10 peers / direct reports & boss
